DESCRIPTORS *College Admission, Colleges, *Directories, Educational Opportunities, *Exceptional Child Research, *Learning Disabilities, Questionnaires

ABSTRACT

The 908 positive replies to questionnaires sent to 4-year colleges, 2-year colleges and post-highschool training programs have been compiled into a directory for youth with learning disabilities. Two major areas of interest were admission policies and curriculum modifications. Colleges which indicated that the learning disabled are admitted are listed by state, as are the post-highschool training programs. Some colleges which replied that the learning disabled are not accepted are listed; their inclusion is based on indications from the questionnaire that some modifications or special programs might be available. Recommendations are made for additional research. (RJ)

FOREWORD

The Association for Children with Learning Disabilities has received numerous requests from parents and other concerned individuals for information regarding post high school training opportunities for youth with learning disabilities. The ACLD Membership Committee was assigned the responsibility of completing a national survey to obtain the needed information, and compiling the results into a directory of post high school training opportunities for use by the association and others.

Information obtained from this survey will be available to interested parties through the ACLD National Office at 2200 Brownsville Road, Pittsburgh, Pennsylvania, 15210. The completed questionnaire forms and other sample materials on post high school training opportunities for the youth with learning disabilities will be on file in the ACLD office.

ACKNOWLEDGMENTS

The writing committee wishes to give recognition to some individuals and groups that have played an important role in the success of this survey. We first wish to acknowledge Dr. Hyman Gardsbane, President of ACLD, for his leadership and his insight into the need for a comprehensive study of post high school training opportunities for older youth with learning disabilities.

We salute the ACLD Board of Directors and ACLD State Presidents for their many letters and suggestions that provided numerous sources of data that added much to the value of this report.

Thanks also go to Mr. Joe Helton, Director of Testing, East Texas State University, for his help in developing a questionnaire that made the study more manageable. Last of all, we wish to thank the many educators that took time from their busy schedules to respond to the questionnaire.

SECTION I

INTRODUCTION TO THE SURVEY REPORT

The report which follows was undertaken at the request of the ACLD, and contains the results of a survey which attempted to determine post high school opportunities for the youth with learning disabilities in the United States.

To present the most complete survey of nation-wide post high school training opportunities for the youth with learning disabilities, the writing committee divided the survey into three sections: four year colleges, two year colleges, and post high school training programs. The two major areas of interest were admission policies and curriculum modifications for the youth with learning disabilities.

The first phase of the survey consisted of compiling names of four year colleges, two year colleges, and post high school training programs. Letters were sent to all national board members, national officers and state presidents of ACLD (see letter #1, Appendix A) asking for the names of four year colleges, two year colleges, and/or post high school training programs in their state that accepted students with learning disabilities. Eighty-six letters were sent and seventeen replies were received. In addition,

seventy-six letters were sent to private special schools for children with learning disabilities asking for names of the four year colleges, two year colleges, and/or post high school training programs their graduates had attended; sixteen replies were received (see letter #2, Appendix A).

The information received from these two sources was then organized. Added to this list were the names of all accredited four year colleges and two year colleges from Accredited Institutions of Higher Education (Federation of Regional Accrediting Commissions of Higher Education, American Council of Education, 1969-70), names of post high school training programs from the Journal of Rehabilitation, Nov.-Dec., 1970, and "Colleges that accept the C student" from an article in the May 1970 issue of Family Circle by Felix Winsten.

Phase two of the survey consisted of formulation and distribution of a cover letter and questionnaire. The questionnaire was designed to obtain information on (1) admission policies that would allow a student with a learning disability to attend and (2) curriculum modifications or special programs available for this student when accepted. The cover letter and questionnaire were sent to

2021 four year colleges, two year colleges, and post high school training programs from the above sources (see letter and questionnaire #3, Appendix A). A total of 908 responses were received to the questionnaire by March 1, 1971. Additional responses have been received since the above date but were too late to be included in the present survey report.

A table showing state by state inquires and responses is found in Appendix B. This table shows all responses to the questionnaire whereas the directory lists only those schools which indicated that they accepted the student with a learning disability.

A number of schools indicated they did not make allowances in their admissions policy for students with learning disabilities. But, in the balance of the questionnaire it was indicated that curriculum modifications might be made on an individual student basis if the student met all other admission requirements. These schools will be listed in Section V to indicate that their response to the question "Does your admissions policy allow for admission of post high school students with learning disabilities?" on the questionnaire was answered "No". Only those schools

that gave enough information about their programs to indicate some curriculum modification for the child with learning disabilities are listed in this section.

SECTION II

FOUR YEAR COLLEGES

The following four year colleges replied "Yes" to the question "Does your admissions policy allow for admission of post high school students with learning disabilities?" on the questionnaire. Any modified programs listed by the colleges on the returned questionnaire are also included in this section.

ALABAMA

JUDSON COLLEGE
Marion, Alabama 36756
Private (Southern Baptist)
Enrollment: 450
Programs: Reading, English, Study Skills

SPRING HILL COLLEGE
Mobile, Alabama 36608

EDUCATORS INSTRUCTIONAL
SERVICES
Perry Hall, Maryland
21128
Enrollment: 46
Programs: Math, Reading,
English, Study Skills,
Vocational Training

VISUAL ARTS INSTITUTE, INC.
Baltimore, Maryland
Enrollment: 60

MICHIGAN

PARSONS BUSINESS SCHOOL
Kalamazoo, Michigan
Enrollment: 143

MONTANA

GREAT FALLS COMMERCIAL COLLEGE
N. Great Falls, Montana
Enrollment: 190
Programs: Reading, Study Skills

NEW YORK

LUTHER E. WOODWARD SCHOOL
Freeport, N.Y.
Programs: Practical Skills, Academic Training, Personal and Group Adjustment

OKLAHOMA

OKLAHOMA FARRIER'S COLLEGE
Sperry, Oklahoma 74073
Enrollment: 35
Programs: Individual Basis

SOUTHWEST COLLEGE OF MEAT CUTTERS
Oklahoma City, Oklahoma
Enrollment: 150 per year
Programs: Vocational Training

TULSA TECHNOLOGICAL COLLEGE, INC.
Tulsa, Oklahoma
Enrollment: 325
Programs: Math, Reading, Study Skills

PENNSYLVANIA

BREEDEN SCHOOL OF WELDING
Genesee, Pa. 16923
Enrollment: 35
Programs: Extended Training Hours

CRAFT SCHOOL OF TAILORING
Philadelphia, Pa.
Enrollment: 35

MC CANN SCHOOL OF BUSINESS
Reading, Pa.
Enrollment: 125
Programs: Reading

NEW CASTLE BUSINESS COLLEGE
New Castle, Pa.
Enrollment: 387
Programs: Math, Reading, English, Study Skills

NEW KENSINGTON COMMERCIAL SCHOOL
New Kinsington, Pa.
Enrollment: 100-140
Programs: Study Skills, Vocational

SOUTH DAKOTA

ABERDEEN SCHOOL OF COMMERCE
Aberdeen, South Dakota
Enrollment: 125
Programs: Business Skills

TENNESSEE

COOPER INSTITUTE OF BUSINESS
Knoxville, Tenn.
Enrollment: 50-75
Programs: Math, English, Typing, Shorthand

WENDELL'S KNOXVILLE SCHOOL OF BEAUTY
Knoxville, Tenn.
Enrollment: 54
Programs: Study Skills

TEXAS

AERO TECHNOLOGICAL INSTITUTE, INC.
Wichita Falls, Texas
Enrollment: 65
Programs: Math, Reading, Shopwork

DEAUCHON'S BUSINESS COLLEGE
Wichita Falls, Texas
Enrollment: 520
Programs: Math, Reading, English

GAIL COLLEGE OF BUSINESS EFFICIENCY
Abilene, Texas
Enrollment: 40-125
Programs: Business Skills

RYDER TECHNICAL INSTITUTE
Dallas, Texas 75207
Enrollment: 160
Programs: Individualized Instruction

GRANBY BARBER COLLEGE, INC.
Norfolk, Virginia
Enrollment: 20
Programs: Science, Study Skills

PHILLIPS BUSINESS COLLEGE
Lynchburg, Virginia
Enrollment: 150
Programs: Math, Reading, English, Study Skills

WASHINGTON

J.M. PERRY INSTITUTE
Yakima, Washington
Enrollment: 150
Programs: Automotive Tech., Electrical Tech. Machine Tech.

YAKIMA BUSINESS COLLEGE
Yakima, Washington
Enrollment: 110
Programs: Math, Reading, English

SECTION V

NO! MAY MEAN YES IN SOME INDIVIDUAL CASES FOR THE STUDENT WITH LEARNING DISABILITIES

The following colleges replied "No" to the question "Does your admissions policy allow for admission of post high school students with learning disabilities?" on the questionnaire. But, in the balance of the questionnaire it was indicated that curriculum modifications might be made on an individual student basis if the student met all other admission requirements.

GEORGIA

UNIVERSITY OF GEORGIA
Athens, Georgia 30601

Enrollment: 8,283
Programs: Summer-on-Trial Basis

SECTION VI

CONCLUSIONS AND RECOMMENDATIONS

The survey of post high school training programs for children with learning disabilities tended to show that colleges and other post high school training institutions do not know or understand the problems of the older youth with learning disabilities. A determined effort should be made by ACLD and its affilliates to inform and educate college boards, administrative officials, and professional staffs about the needs of this unique person - the older youth with learning disabilities.

A report of survey results has been sent to all institutions included in the survey that indicated interest in results. This report along with the original questionnaire may have stimulated some institutions to become better prepared to serve our children.

It is felt with deep conviction that additional research should be done on the following identified needs:

1. A directory of agencies providing vocational education and training opportunities for youths with learning disabilities that are sixteen years of age and older.

2. A directory of apprenticeships and on-the-job training opportunities for older youths with learning disabilities.

3. An appointed ACLD committee to work with local, regional and national accrediting agencies and with individual colleges toward the modification of college entrance and curriculum requirements for capable youth with learning disabilities.

4. A designed and coordinated program by ACLD affilliates and members to promote the development of post high school training opportunities for children with learning disabilities.

5. A system of follow-up studies of post high school training opportunities to be completed during each two or three year period and the results of such studies published so that current up-to-date information would be available for public information and dissimination.

It is felt that implementations of projects to find solutions to the above identified needs would be a major step toward improving the opportunities for children and youth with learning disabilities.

It also seems imperative that the results of this current survey be made available for distribution through ACLD's

national office.

The ACLD Membership Committee extends their thanks to all parties participating in this survey.

Subject: Post-High School Opportunities for Children with Learning Disabilities

The Membership Committee of the Association for Children with Learning Disabilities is conducting a survey to gain useful information concerning admission policies and modified curriculum programs for students with learning disabilities in colleges, universities and post-high school training programs throughout the nation.

Any information you might have on the facilities offering such programs for this type of young person would be greatly appreciated. A list of schools in your state and/or persons to contact for further information would be helpful.

Dear Sirs:

The Membership Committee of the Association for Children with Learning Disabilities is conducting a survey to comprise a directory of colleges, universities and other post-high school training institutions throughout the nation offering programs for students with learning disabilities.

We would appreciate your sending the names of all colleges, universities, and post-high school training programs your graduates have gone on to attend. Any information that you could forward to us will be greatly appreciated.

A stamped, self-addressed envelope is enclosed for your convenience in replying.

Sincerely,

John R. Moss

Dear Sirs:

The Association for Children with Learning Disabilities is conducting a survey to gain useful information concerning admission policies and modified curriculum programs for students with learning disabilities in colleges, universities and post-high school training programs throughout the nation. It seems worthwhile to make use of direct contact among colleges to share accurate, contemporary data concerning these programs.

We will appreciate your taking the time to complete the enclosed questionnaire. Every effort has been made to arrange the items in such a manner as to supply the most information to us while giving the least inconvenience to you. A stamped, self-addressed envelope has been enclosed for your convenience.

Any information that you could forward to us concerning your modified admission policies and curriculum programs will be greatly appreciated. If you desire the results of this survey, please complete name and address at the end of the questionnaire.

Sincerely,

John R. Moss

Description of the youth with learning disabilities:

The older youth with learning disabilities is a person with average to superior intelligence that has difficulty in adjusting to the normal classroom setting without some modification of the curriculum to allow for his individual learning mode. This person may have difficulties due to perceptual, conceptual and/or subtle coordinative problems but he has the ability to become a highly competent and contributing member of society when his needs are recognized and the necessary curriculum adjustments are made.

1. Name of Institution: _____

2. Classification: _____ Four year college with graduate program

   _____ Four year college with no graduate program

   _____ Junior College

   _____ Post-High School Training Program

3. What is your enrollment? _____

4. Does your admissions policy allow for admission of post high school students with learning disabilities?

   _____ yes

   _____ no

5. If yes, how does your admission policy make allowance for the student with learning disabilities?

6. What percent of your students enter under this program?

   _____%

7. What percent of the students who entered under this program go on to graduate or complete their post high school training program?

   _____ less than 25%

   _____ 25% - 50%

   _____ 50% - 75%

   _____ 75% - 100%

8. Do you have modified curriculum programs for students with learning disabilities?

_____ yes

_____ no

9. In what areas are these modified programs?

_____ Math

_____ Science

_____ Reading

_____ English

_____ Study Skills

_____ Other (Please list these)

10. How are these programs modified to include the student with a learning disability?

If you would like the results of this questionnaire, please fill in your name and address:

Name: _____

Address: _____

City: _____
(Zip)
